THE INSIDE STORY

Immigrants and explorers. Loggers, traders, millers, merchants, farmers with crops and cattle. Pioneer spirits stopped, stayed and started working at the port in Winona; an island city cradled by the Mississippi River on one side of town, towering limestone bluffs on the other. Winona connected the Midwest to the world, centered in a vast fertile land where labor was a way of life. Henry Behrens, born in Germany, came to America in 1867, ventured to this bustling river town, was married, had a son they called Henry J and played the role of carpenter and contractor.

WHEN THERE IS WORK TO DO, TOOLS ARE NEEDED

This was a hard-working, thriving community and Henry opened a hardware store on Third and Grand to serve it. On the second floor of this store, Henry J, then 14 years old, tinkered and played with metal, recognizing new ways to make his father's customer's lives easier. With the "Cyclone Spinner" created to help people wash their clothes, Behrens Manufacturing was born. Innovation in its earliest form.

A HANDCRAFTED HERITAGE MADE IN THE USA

The company and its products have stood the test of time. You can see the same workmanship in the details. You'll feel the continued strength and confidence in the materials. You'll recognize the true authenticity and unmatched quality melded out of American pride.

Behrens carries on. While the products we create today still help the world work and get organized, today our purpose transcends function and surpasses utility. From the tubs that hold Farmer's Market's first blossoms to the pails that gather sands at the lake and hold cold beer... our greatest passion is to inspire, to bring joy and add beauty.

FORGING THE FUTURE

Historically, the most important properties of steel were durability, strength and its ability to be shaped into many useful products. Today, while those aspects are still important, there's more that matters.

BEHRENS TENETS OF CIRCULAR DESIGN AND MANUFACTURING

QUALITY MATERIALS
We start with intentional use of materials that can be repurposed, recycled or biodegraded. It cuts down on the need for new virgin materials, reduces energy consumption, and removes certain materials from the waste stream.

CYCLABILITY
Behrens designs and engineers with the end in mind, considering how a product will be recycled at the end of its functional use. The goal: not having our products end up in landfills.

MINIMIZING WASTE
We ensure our waste is removed responsibly and upcycled back into raw material, creating the opportunity for it to be turned into new material repeatedly.

PARTNERSHIPS
We partner globally and domestically to resource materials from socially responsible suppliers and organizations that educate and teach consumers about the qualities and types of products that can be recycled and upcycled. We steward sustainable practices and join in partnership with global nonprofit organization, Metal Recycles Forever.

PURPOSEFUL PACKAGING
Packaging is designed and made of materials that can be repurposed or recycled or simply biodegrade.

DURABILITY
Products are made of 100% galvanized steel, making them stronger and longer lasting.

VERSATILITY
Our products easily adapt to style, gender, activity and purpose.

DISASSEMBLY
We design products that can be taken apart, recognizing the value of each component and its cyclability.

GREEN CHEMISTRY
We respect the planet through the careful use and application of chemicals to reduce or eliminate the use of hazardous substances.

REFURBISHMENT
Many of Behrens products can be maintained via repair or with replacement parts, extending their use and lifecycle.

STEEL IS SUSTAINABILITY.

Highly durable, weather, chemical and rodent resistant, Behrens products are 100% recyclable. When metal products reach the end of their useful life, the materials are simply collected and recycled, again and again, with no loss of their inherent properties.

Abandoned steel objects such as ships, oil rigs, and more are used to create artificial reefs to boost sea life and are a boon to ecological efforts.

We manufacture responsibly, preserving the earth's natural resources, reducing energy consumption and CO2 emissions.

THESE ARE PRODUCTS THAT RESPECT THE PLANET.

NOT ALL STEEL IS CREATED EQUAL.

Behrens steel products are more durable than plastic, made of 100% sustainable materials and resistant to:

DESIGNED FOR CIRCULARITY

There isn't anything like it. Products made of steel are infinitely recyclable. Using the Metal Recycles Forever™ mark, the trusted global authority, is paramount to informing and helping consumers better understand the key role they have to play in keeping steel in the material loop by recycling their products at the end of their useful life. No ambitious language or clever wording required, just a clear statement that metal is forever, placing Behrens at the heart of the circular economy, working as one to close the real recycling loop.

Cans

HOLD UP,

these products are built to last. Made with the highest quality galvanized steel, interlocking seams provide superior strength and offset bottoms keep cans off the ground. From yard waste to trash or carrying decorative plants, they work hard and look good around the home, farm, shop and patio.

ANATOMY of TRASH/UTILITY CANS

METALWARE CLASSICS™

BEHRENS PRODUCTS ARE BETTER DESIGNED

- Pierced and curled drop down, solid steel handles
- Wired top rim and corrugated body for extra rigidity
- Raised bottom with stamped ribs for strength
- Double seamed, with deep swedging for superior structure
- Bottom swedging is an anti-lock bead to prevent cans from sticking together when stacked
- Cans available in multiple sizes: 6, 10, 20 and 31 gallon

QUALITY METALWARE™ LOCKING LID CANS

- Heavy gauge steel wire bails for portability ease
- Fitted with lid and locking riveted ears
- Multi-use
- More durable and longer lasting than plastic
- Keeps rodents out
- Locking lid feature keeps the lid on even when tipped over or attacked by an animal
- Ideal for pet food, bird seed, shop rags, fireplace ash storage.
- Available in multiple sizes: 6 and 10 gallon and in embossed Feed & Seed designs.
- Embossed Behrens lids included

BUILT TO LAST
weather, chemical & rodent resistant

SUSTAINABLE RODENTS RUST ODOR

TRASH/ UTILITY CANS

- Superior structure and strength
- Built to last. Weather, chemical & rodent resistant
- More durable & longer lasting than plastic
- Durable wire handles for easy portability and tight-fitting lid
- Dry contents only
- 100% recyclable, made with 100% sustainable materials

Pails

CUT CLUTTER AND

add style with the highest quality galvanized steel that's both decorative and highly functional. Cleaning and storage solutions are smartly crafted, rust-resistant and come in an assortment of shapes and sizes to get any job done and keep it all tidy.

ANATOMY of PAILS

METALWARE CLASSICS™

METALWARE CLASSICS™

- 2 quart, 5 quart, 8 quart, 10 quart, 12 quart, 14 quart, 4 1/4 Gal sizes
- Classic galvanized steel finish provides functionality and versatility for any use.
- Galvanized sheet steel and Hot Dipped galvanized options
- Seasonal and embossed options

FOR OVER 100 YEARS ONE PROMISE TO PROVIDE

- Quality Metalware™
- Superior materials and engineering
- 100% recyclable

THE BEHRENS DIFFERENCE

- Made in the U.S.A.
- Double seamed
- Superior and 100% galvanized steel
- Wire rimmed for added durability and rigidity
- Top swedge is engineered to provide extra rigidity to carry heavy loads
- Bottom swedge is an anti-lock bead to prevent pails from sticking together when stacking
- Solid steel wire bail
- Sealed for water tightness and dry content protection
- More durable and longer lasting than plastic

GALVANIZED SHEET STEEL

Coils of sheet steel are galvanized at the mill. Coating thickness is more consistent. Sealed seams provide water and proof properties and protection from leaks.

V.S.

HOT DIPPED GALVANIZING

After the metal container is constructed, it is dipped in a bath of molten zinc to coat and seal the shape. Provides protection from rust corrosion as well as seals the product to hold liquid.

GALVANIZED PAILS

- Classic finishes provide functionality for any use
- Wire reinforced top rim for added durability
- Solid steel wire bails
- Sealed for wet or dry contents
- 100% recyclable, made with 100% sustainable materials
